**Workshop on "Laboratory Safety"**

Date: 30th June 2022

- Title of the activity: Workshop on "Laboratory Safety"
- Organizing Departments: Department of Microbiology
- Number of Participants: 97
- Time-10.30 am onwards
- Date 30th June 2022
- Venue: Conference Hall
- Name of the Chief Guest- Dr. Suhasrao Khambe, Director, Nikhil Laboratory, Sangli
- Name of the President- Prof. Dr. V. Y. Kadam

**Objective of the Event:**

The primary objective of the "Laboratory Safety" workshop was to create awareness among participants, including students, teaching, and non-teaching staff, about the importance of laboratory safety. The workshop aimed to familiarize attendees with the potential hazards associated with laboratory chemicals, equipment, and microbiological cultures. It also sought to educate participants about standard operating protocols (SOPs) and best practices to ensure a safe and secure working environment in laboratories.

**Faculty Involved:**

The workshop featured a team of faculty members who actively contributed to the event's success. Mr. S.S. Shinde introduced the esteemed resource person, Dr. Suhasrao Khambe, providing participants with valuable insights into his expertise. Mr. J.V. Kuwar delivered the vote of thanks, expressing gratitude to all participants and the chief guest for their presence and engagement. Miss. A. Pawar skillfully anchored the workshop, ensuring a smooth flow of the proceedings.

**Event Outcome:**

- **Awareness on Hazards:** Attendees became more aware of the potential hazards posed by laboratory chemicals, equipment, and biological materials. Understanding these risks is crucial in preventing accidents and injuries.
- **Importance of Laboratory Safety:** The workshop emphasized the vital role laboratory safety plays in ensuring the well-being of all individuals working in a laboratory environment. Proper safety measures can significantly reduce accidents and protect the health of laboratory users.
- **Standard Operating Protocols:** Participants were educated about the importance of

following standard operating protocols (SOPs) while handling equipment, chemicals, and cultures. Adhering to SOPs ensures consistency, minimizes errors, and maximizes safety.

- **Prevention of Accidents:** The workshop provided practical tips and guidelines for accident prevention in laboratories. Participants learned how to identify and mitigate potential risks, enhancing their overall safety awareness.
- **Promoting a Safety Culture:** The event fostered a culture of safety within the Department of Microbiology and the wider institution. Encouraging a safety-first mindset will contribute to a safer and more productive learning and working environment.

**Conclusion:**

The "Laboratory Safety" workshop organized by the Department of Microbiology on 23rd November 2022 was a highly informative and successful event. Dr. Suhasrao Khambe's valuable insights, combined with the efforts of the faculty and active participation of 97 attendees, contributed to the achievement of its objectives. By promoting awareness, emphasizing safety protocols, and instilling a safety culture, the workshop has significantly enhanced the overall laboratory safety standards within the institution. Such initiatives are crucial in maintaining a safe and productive learning and working environment for all individuals involved in laboratory activities.
