Vision

'Social Transformation through Dynamic Education'

Mission

To create awareness for higher education among the girls from the rural area, help them to be educated, self reliant to uplift their standard of living and contribute actively to bring about the social transformation'.

The vision of the institution assists for the significant development of relationship in the area of cultural, interpersonal, organizational, civic and environmental protection. These dimensions show the institutional integrity. In order to function well in the society the institution has its educational strategies grounded in ethics. Vision and mission of the institution develops the ideas on how these resources can be put to best in use.

The mission of the institute is 'Social Transformation through Dynamic Education' which is the Motto of the parent institute, Bharati Vidyapeeth. It is well said that when a girl is educated, she upgrades two families, one of her maternal and the other of her in-laws. With this thought, great visionary founder of Bharati Vidyapeeth Dr. Patangrao Kadam realized the importance of education for women and established this College.

Our goal is for the overall development of the students through curricular and co-curricular activities. Through education we want to bring about qualitative and quantitative change in the society around. The required transformation of the area has taken place. Accordingly, the girls have started taking part in different educational and social activities in the campus and off the campus.
