❖ **Outcomes of the Activity :**

Violence against women and girls is a human rights violation, and the immediate and long-term physical, sexual, and mental consequences for women and girls can be devastating, including death. Violence negatively affects women's general well-being. So It is very important to study this topic. It can help children gain a sense of personal control by talking openly about violence and personal safety.

It focuses on Primary Prevention to reduce incidents of violence against women across the country, which can be achieved by empowering individuals to know and claim their rights, and to educate them where to seek help in cases of violence.
