REPORT ON INDEPENDANCE DAY CELEBRATION ON

15.08.2022

India celebrates Azaadi Ka Amrit Mahotsav on August 15, 2022 in order to commemorate 75 years of independence from the British rule. The day brings back the memories of the freedom struggle that Indian society as a collective went through to gain long evasive independence. Every year, Indian flag is hoisted at the Red Fort in Delhi followed by the Prime Minister's speech, a trend that has been followed since the first Prime Minister, Jawaharlal Nehru declared Independence on the night of August 15, 1947 and gave the phenomenal speech including the words, "At the stroke of the midnight hour, when the world sleeps, India will awake to life and freedom."

It was a red letter day in the history on India when the country got her freedom on August 15, 1947. Even after 75 years there are so many beautiful things in our country that we should always cherish as Indians. We still live the concept of "Unity in Diversity" with diverse language, culture and region. And the most astounding fact about our country is we have 325 spoken languages and 18 official languages. We live in harmony with over 8 religious and celebrate each festival with love.

The event started at 8.30 am with its most gracious essence as our Principal hosted the flag as the sense of integrity and peace. About 42 teachers and 80 volunteers were present for flag hosting.

At the college entrance there was Rangoli which was made by the NSS volunteers which makes the event more beautiful and which was like cherry on the cake.

Date: 24th March 2022

NSS Unit in the college was formed with 200 volunteers of 2 units with program officers Dr. C. E. Patil and Mr. A. M. Yadav and members Mrs. Savita Mali and Mr.A.B. Mali .

FIT INDIA Movement was launched on 29th August, 2019 by Honorable Prime Minister with a view to make fitness an integral part of our daily lives. The mission of the Movement is to bring about behavioral changes and move towards a more physically active lifestyle.

Physical activity in childhood is closely associated with health. Physical activity refers to all movement of the body caused by the contraction of the skeletal muscles (World Health Organization, 2015) and plays a vital role in energy consumption. However, despite many positive effects provided by physical activity, there is an increasingly decline in physical activity opportunities for students. In addition, due to the characteristics of modern society and the way science and technology has increased individuals' sedentary lifestyle.

Prof. Mali A.B. guided students for morning Exercise in NSS camp.
