## **Department of Zoology and Nature Club Activities 2021-22**

### **Report**

#### **World Ozone Day Celebrations 2021**

**Date: 16 September 2021**

**Number of participants:** Students- 29, Faculty-04

The Nature club and department of Zoology conducted an offline quiz on the theme **Montreal Protocol – keeping us, our food, and vaccines cool** as a part of Ozone Day celebrations on 16<sup>th</sup> September 2021. About 40 participants including students participated in the quiz.

The main aim is to remind the world about the depletion of the ozone layer and its impact on the earth. Hence, we have arranged a quiz competition on world ozone day to aware the student regarding it. The ozone layer of the Earth protects us from the harmful ultraviolet rays of the sun. Unfortunately, our race for maintaining a high quality of life has led to its depletion. On 1<sup>st</sup> January 1989, the Montreal Protocol came into force to stop the depletion and reduce the usage of substances that cause holes in our protective blanket. Sustaining the Ozone layer is hence the collective responsibility of all the nations.
